2. Scope of Work

Extent of fire alarm and detection system shall be as described in this specification and as required by code

Each and all items of the fire alarm system shall be listed as a product of a SINGLE fire alarm system manufacturer under the appropriate category by the Underwriter's Laboratories, Inc. (UL) and shall bear the "UL" label. All control equipment is to be listed under UL category UOJZ as a single control unit. Partial listing will NOT be acceptable.

The equipment and installation supervision furnished under this specification is to be provided by a supplier who has been engaged in production of this type (software driver) of equipment for at least ten (10) years and has a fully equipped service organization.

The system controls shall be UL listed for Power Limited Applications per NEC. All circuits must be marked in accordance with NEC.

The control panel shall receive 120 VAC power via a dedicated, fused disconnect circuit.

The system shall be provided with sufficient battery capacity to operate the entire system upon loss of normal 120 VAC power in a normal supervisory mode for a period of twenty-four (24) hours with five (5) minutes of alarm indication at the end of this period or as required.

Circuits requiring system operation power shall be 24 VDC and individually fused at the control panel.

Each component of the fire alarm system shall be supervised for improper operation including open or short circuits by the fire alarm panel. The fire alarm panel shall also supervise itself for low battery voltage and loss of

3. Source Selection and Contract Award
